At present, the countries participating in the Programme are all Member States, with the exception of United Kingdom and Denmark. Should third countries, i.e. EFTA States that are party to the EEA, or candidate countries, potential candidates and countries acceding to the Union, conclude an agreement with the Union on their participation in the Programme as of 2015, this will be announced in the relevant call for proposals and/or on the Programme's website.

The Programme shall finance actions with European added value. The European added value of actions, including that of small-scale and national actions, shall be assessed in the light of criteria such as their contribution to the consistent and coherent implementation of Union law, and to wide public awareness about the rights deriving from it, their potential to develop mutual trust among Member States and to improve cross-border cooperation, their transnational impact, their contribution to the elaboration and dissemination of best practices or their potential to create practical tools and solutions that address cross-border or Union-wide challenges.

All activities implemented under this work programme shall respect and shall be implemented in line with the rights and principles enshrined in the Charter of Fundamental Rights of the European Union and promote equality between women and men and the rights of the child.

Activities implemented under this work programme shall ensure consistency, complementarity and synergies with activities supported by other Union instruments including, inter alia, the Rights, Equality and Citizenship Programme; in the areas of home affairs, such as the Instrument for financial support for police cooperation, preventing and combating crime, and crisis management, as part of the Internal Security Fund; in the areas of health and consumer protection, such as the Health for Growth Programme; in the areas of education, training, youth and sport, such as the Erasmus+ Programme; in the areas of information society and research, such as the Horizon 2020 Framework Programme; and enlargement, in particular the Instrument for Pre-accession Assistance (IPA II).

It is not foreseen at this stage that the Justice Programme contributes financially to institutional communication in 2015, in accordance with Art. 6(1)(c) and 8(2) of the Regulation on the Justice Programme 2014-2020. However, this is without prejudice to the fact that it shall do so in this or future exercises, as agreed by the Commission in the Communication SEC(2013)486 final of 23.9.2013.

Specific objective: to support and promote judicial training, including language training on legal terminology, with a view to fostering a common legal and judicial culture

BUDGET LINE

33 03 01

Priorities of the year, objectives pursued and expected results

The aim of this call is to contribute to the effective and coherent application of EU law in the areas of civil law, criminal law and fundamental rights.

Priority will notably be given to training on the following topics:

Civil law

- Legal instruments in family matters and successions, in particular:
Regulation (EU) No 650/2012 on jurisdiction, applicable law, recognition and enforcement of decisions and acceptance and enforcement of authentic instruments in matters of successions and on the creation of a European Certificate of Succession;
- Legal instruments in civil and commercial matters, in particular:
Regulation (EC) No 805/2004 creating a European Enforcement Order for uncontested claims;
Regulation (EC) No 1896/2006 creating a European Order for Payment Procedure;
Regulation (EC) No 861/2007 establishing a European Small Claims Procedure;
Regulation (EU) No 1215/2012 on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters (recast);
Regulation (EC) No 655/2014 creating a European Account Preservation Order to facilitate cross-border debt recovery in civil and commercial matters;
- Training of enforcement authority agents applying instruments in the area of civil judicial cooperation, in particular:
Regulation (EC) No 2201/2003 concerning jurisdiction and the recognition and enforcement of judgments in matrimonial matters and the matters of parental responsibility (Brussels IIa);
Regulation (EC) 805/2004 creating a European Enforcement Order for uncontested claims;
Regulation (EU) No 655/2014 establishing a European Account Preservation Order procedure to facilitate cross-border debt recovery in civil and commercial matters.

Criminal law

- Procedural rights in criminal proceedings:
Directive 2010/64/EU on the right to interpretation and translation in criminal proceedings;
Directive 2012/13/EU on the right to information in criminal proceedings;
Directive 2013/48/EU on the right of access to a lawyer in criminal proceedings and in European arrest warrant proceedings, and on the right to have a third party informed upon deprivation of liberty and to communicate with third persons and with consular authorities while deprived of liberty.
- Victims' rights:
Directive 2012/29/EU establishing minimum standards on the rights, support and protection of victims of crime;

Fundamental rights

- The scope and application of the Charter of Fundamental Rights of the EU,
- in particular its Article 45 on Freedom of movement and other Union citizenship rights

Other priority topics

The proposed training activities can also include the following topics:

- Development of linguistic skills of legal practitioners;
Projects should cover the legal terminology used in the work environment of practitioners;

- Knowledge of the legal systems of the Member States;
- Once it is released, the use of the search tool of the European Case Law Identifier (ECLI) to identify foreign judicial decisions, notably in the context of the "acte clair" doctrine of the Court of Justice of the EU (CJEU).

Proposals outside of these priority topics

Since the assessment of European judicial training needs cannot be solely conducted at EU level and is mainly done nationally and even locally, policy priorities mentioned in the annual work programme are indications of possible topics of supported projects. Regarding proposals not in line with these priorities, they may still be awarded funding if applicants can justify the suggested training topics by an evidence-based needs assessment, showing that more training is needed for the proper application of EU law in the field to be covered.

Target group

The training should target members of the judiciary and judicial staff, meaning judges, prosecutors and court officers, as well as other legal practitioners associated with the judiciary, such as lawyers, notaries, bailiffs, probation officers, mediators, court interpreters and translators, who are involved in the application of the relevant instruments.

Distribution of financial support between different topics

When deciding on the allocation of grants, a fair balance between topics and/or target audience may be sought.

Moreover, priority will be given to projects that do not duplicate existing training material or on-going projects but that act in complementarity or that innovate.

Description of the activities to be funded under the call for proposals

The training activities implemented by each project must include participants (trainees) from different participating countries.

In the priority areas defined above (including those identified by a needs assessment), this call will fund activities such as:

- Organisation of interactive, practice-oriented training activities;
- Multilateral exchanges between legal practitioners (except for judges and prosecutors whose training bodies are members of the EJTN and may thus take part in the exchanges organised by the EJTN);
- Creation of training content, whether for presential learning, blended learning or e-learning, either ready-to-use by trainers or by practitioners for self-learning;
- Tools for training providers (for example: train-the-trainers events, tools to support the organisation of training in other Member States, etc.).

Projects that roll out training modules created by the Commission on European legislation can also benefit from funding.

All these activities can take place in the context of initial training (induction-period) or continuous training of the participants (for example: training activities to familiarize newly appointed legal practitioners with EU legislation and judicial cooperation instruments; or more specialised training activities for practicing legal practitioners).

Projects targeting "Knowledge of the legal systems" should cover the legal systems which have particular relevance for the participants and involve experienced legal practitioners who will be able to compare experience and practice of application of EU legal instruments.

Projects should also aim at encouraging practitioners to follow training in a foreign language, either by providing simultaneous high-quality interpretation into their native language or by easing the participation with foreign language training (for example with an introduction to the relevant legal terminology of the topics covered prior to or at the beginning of the training activity, or with a linguistic warm-up by actively involving participants at the beginning of the training activity, etc).

Training methodology

Applications should notably take into account recommendations resulting from the EU pilot project on European Judicial Training² or expand good practices³ revealed by this pilot project to other Member States or legal professions.

Dissemination strategy

The Commission is particularly interested in activities with multiplication effects, such as train the trainers' activities. The funded projects are expected to have a clear dissemination strategy of their results.

Essential eligibility criteria

To be **eligible**, grant applications must comply with all of the following criteria:

- (a) the applicant must be a public entity or a private organisation, duly established in one of the countries participating in the Programme, or an international organisation. Organisations which are profit-oriented must submit applications in partnership with public entities or private non-profit-oriented organisations;
- (b) the application must be transnational and involve organisations from at least two participating countries;
- (c) the EU grant applied for cannot be lower than EUR 50 000;
- (d) the project must not have started prior to the date of submission of the grant application.

Specific objective: to support and promote judicial training, including language training on legal terminology, with a view to fostering a common legal and judicial culture

BUDGET LINE

33 03 01

Priorities of the year, objectives pursued and expected results

The aim of this call is to contribute to an effective and coherent application of EU competition law in the Member States. This includes Articles 101 and 102 TFEU, the State aid rules, including Article 107 and 108 TFEU, and the private enforcement of the EU competition rules before national courts, including antitrust damages actions.

The priorities of this call for proposals are:

- Improvement of knowledge, application and interpretation of EU competition law;
- Improving and/or creating cooperation/networks between competition law judges;
- Development of competition law specific linguistic skills of national judges.

Description of the activities to be funded under the call for proposals

This call will fund:

- training activities aiming to ensure coherent and effective application by national courts of the EU competition rules;
- activities aiming to improve and encourage the cooperation between national competition law judges; this includes the application of specific cooperation mechanisms between national judges and competition authorities (see the specific cooperation rules under [Regulation \(EC\) No 1/2003](#) or [Regulation \(EC\) No 734/2013](#)), as well as networking and exchange between national judges.

Financial provisions

Beneficiaries shall declare eligible costs for accommodation and per diems of participants/speakers/interpreters of the trainings on the basis of unit costs, the amounts of which are established in accordance with Commission Decision C(2008)6215 approving the General implementing provisions adopting the Guide to missions for officials and other servants of the European Commission, unless a specific ad hoc decision(s) is adopted in the meantime.

50% daily rate will apply to per diems for half day seminars. These unit costs give a reasonable approximation of the costs typically incurred by persons staying in a different location than their own, no matter for what purpose.

The use of unit costs is justified by the nature of the eligible costs covered by the unit costs (accommodation and subsistence costs for the participants/speakers/interpreters in the trainings requiring the extensive verification of actual costs incurred for relatively small amounts). The authorisation of unit costs will simplify the management of the grants by alleviating the administrative and financial burden for the beneficiaries when reporting and for the Commission when verifying the costs actually incurred.

The majority of beneficiaries participating in this call will be public entities, thus the risk of fraud or irregularities is assessed as relatively low.

The compliance with the co-financing principle will be ensured by the application of the applicable co-financing rate to the eligible costs declared on the basis of unit costs.

The compliance with the no-profit principle will be ensured at the time of verification of the final financial statement of the beneficiary.

Avoidance of double financing is ensured by clear identification of the categories of costs covered by the unit costs (accommodation costs and per diems of participants in trainings).

Essential eligibility and award criteria

1. To be **eligible**, grant applications must comply with all of the following criteria:

- (a) the project must be submitted by authorities, public or private organisations duly established in one of the eligible countries, or an international organisation. Organisations which are profit-oriented must submit applications in partnership with public entities or private non-profit organisations.
